Subject: Project “Digitalisation of the Built Environment” – Contract EISMEA/2022/OP/0007

Dear Sir / Dear Madam,

The European Innovation Council and SMEs Executive Agency (EISMEA) , under the powers delegated by the European Commission,

have tasked the consortium of PWC (PWC EU Services, PWC Greece and PWC Luxembourg) in cooperation with CARSA and Technical University of the Shannon (TUS)

to conduct a project to develop supporting actions for the project titled “Digitalisation of the Built Environment”.

EISMEA is managing the proceedings in cooperation with DG GROW.

As part of this project, the contractor is inviting various stakeholders to different types of consultations linked to the project tasks. The project tasks include:

- Organising **interviews** with stakeholders of initiatives relevant for a future European Construction Data Space, and to gather insights on the implementation of digital building permit systems
- Inviting construction stakeholders to participate in **online surveys**, to collect data for the analysis as well as to validate the study findings
- Arranging **online webinars/workshops** for definition of data space requirements and for validation of the study conclusions
- Contacting **municipalities** via emails and/or a survey to map the level of digitalisation of building permit systems across the EU
- Providing building permit **training** (in person or hybrid) to the staff in a suitable municipality
- Contacting **public buyers** in order to participate in the “BIM in Public Procurement community”
- Contacting **stakeholders** in order to invite them in dissemination events and activities for the “BIM in Public Procurement community”, or to discuss BIM maturity, assessment and implementation matters at EU MS level
- Any other form of outreach to support the mapping of building permit systems, BIM maturity mapping and assessment of EU MS

We would highly appreciate your support in the consultation activities of the contractor.

The Contractor will ensure that all information is collected and processed in full compliance with applicable national and EU data protection laws. Any information that is deemed confidential by

a stakeholder will be kept exclusively for internal use, and will not be disseminated publicly, unless it is aggregated in such a way as to keep anonymity.

Should you require any further clarifications, please do not hesitate to contact us at EISMEA-SMP-COSME-DIGIT-BUILT-ENV@ec.europa.eu.

Yours faithfully,

(e-signed)
Katharina Knapton-Vierlich
Head of Unit
DG GROW H1
